

# Garden Goals

**Write down your goals, desires, and needs to create a program for the site that portrays the vision of what you want your garden to be.**

Inventory	
Name	
Location	
Who are the primary users of the yard?	
What are their relevant hobbies, interests, problems (i.e. allergies)?	
What is your desired tenure and long-term plans in the home?	
Are there pets or animals?	
Who else uses the yard?	
What events can occur at the garden, how many people will be there, how often do they occur, and what time of year and day?	
Write down your intended use of the landscape and your top priorities, considering the lifestyle you want.	

## Installation and Maintenance

When do you plan on hiring outside help? (i.e. hiring contractors for projects or for maintenance)	
What is the desire maintenance level? (consider hours per week at peak season)	
What is your desirability and skill level for do-it-yourself projects?	
What landscape or garden tasks do you enjoy?	
What landscape or garden tasks would you like to avoid?	
What is your desired timetable for landscape improvement?	
How do you want to break up the garden progression into stages?	
Budget	
What is your total landscape budget?	
What is your budget for the next landscape project?	
What is your yearly budget for garden maintenance?
